TO THE TRADE

WE herewith hand you our Mirror Catalog of 1913-1914 and by careful inspection of its pages you will find that it contains a

Line of Framed Mirrors

that is certainly very attractive. Both the Frames and Mirrors are from carefully selected stock and we do the silvering by a process which has stood the test of many years and is the equal of any process used here or abroad.

In presenting this catalog, we have been careful to select only such designs as will appeal to the artistic public, and to the conservative trade. It being impossible to incorporate in it every style that we carry—75 numbers, but on request, our salesman will call on you with full line of photographs.

Prices will be quoted on application, all inquiries being carefully and promptly handled. All goods are f. o. b. Boston.

We are not responsible for breakage or damages of any nature. Our responsibility ceases when goods are delivered in good order to the different transportation companies. We will say in this matter that goods are packed extremely well by men of experience in packing this line of goods.

For convenience of our trade, we have an entire line of these frames on exhibition at our show rooms, Nos. 20 and 22 Canal Street, Boston.
